## **Weis Markets Joins ES3 Consolidated Program in Northeast**

Weis Markets recently joined ES3's Consolidation Program, becoming the seventh retailer to take advantage of this cost-reducing model. Weis Markets, a self-distributing Mid-Atlantic food retailer based in Sunbury, Pennsylvania, operates about 163 stores in Pennsylvania, Maryland, New York, New Jersey, and West Virginia.

"ES3 is excited to grow services for our manufacturing partners by adding Weis to our retailer network. This further highlights the value to all with collaborative supply chains, and will improve savings and provide better on shelf availability to the consumer" stated Matt Rzucidlo, ES3 Vice President of Client Solutions.

ES3's Consolidation Program for the Northeast is based out of the flagship facility, located in York, PA. This program, offered to more than 60 manufacturers, reduces costs and provides better service, with orders arriving at the retailer's distribution center 24 hours after they are placed. By utilizing the space on trucks with 42,000 CAW (Cube Adjusted Weight), all orders are truly full.

### **About ES3**

ES3 is an experienced team of third-party logistics experts, saving CPG manufacturers and retailers significant time and money every day. A pioneer of the 3D Supply Network model, ES3 eliminates days and reduces the cost of the supply chain for manufacturers and retailers. ES3 does this by combining warehousing, mixing, and distribution services under one roof in a collaborative multi-manufacturer and retailer model optimized by advanced technology. ES3 provides solutions across all channels, providing superior on-shelf-availability rates, maximizing its supply network to expedite replenishment.
