ES3 Receives Gold Award from United Way

ES3 has been recognized by the United Way Organization with the Gold Award for their 2014-2015 workplace campaign. This campaign has been called one of the greatest social inventions in American history. Working together with employers and more than a million volunteers each year, United Way invites people to advance the common good and create opportunities for a better life for all.

The Gold Award is presented to companies that show outstanding service and support within their local communities. In order to receive this award, companies must meet 4 out of 5 of the following criteria: an increase of employee giving from the previous year, at least \$175 average employee gift, 50% or more participation in campaign giving, employee volunteer involvement, and three or more employees giving at the Lighthouse Leadership Circle level of \$500 or more.

“Our longstanding partnership with the United Way is possible thanks to the generous donations of our team members” said Brenda Hambleton, Chief Marketing & Strategy Officer at ES3. “Our commitment to this organization continues to grow every year and we hope ES3 remains a dedicated contributor for many years to come. Supporting our local communities allows all of us to win together.”

About ES3

ES3 is an experienced team of third-party logistics experts, saving CPG manufacturers and retailers significant time and money every day. A pioneer of the 3D Supply Network model, ES3 eliminates days and reduces the cost of the supply chain for manufacturers and retailers. ES3 does this by combining warehousing, mixing, and distribution services under one roof in a collaborative multi-manufacturer and retailer model optimized by advanced technology. ES3 provides solutions across all channels, providing superior on-shelf-availability rates, maximizing its supply network to expedite replenishment. To learn more, please visit www.ES3.com.

About United Way

The United Way is a universal system of volunteers, contributors, and local charities helping people in their own communities. It advances the common good, creating opportunities for a better life for all by focusing on the three key building blocks of education, income, and health.
